IMRAN B

C.Abdul Hakeem College of engineering and technology

👤 Profile

Results-driven Computer Science student at C. Abdul Hakeem College of Engineering and Technology, with a focus on developing technical skills and knowledge in the field. Currently pursuing a Bachelor of Engineering degree, expected to graduate in January 2027. Committed to applying academic learning to practical challenges in technology and engineering. Skills include programming, software development, and problem-solving.

🎓 Education

B.E. in Computer Science, C. Abdul Hakeem College of Engineering & Technology

January 2023 — January 2027

👥 Internships

Webdevelopment Internship at Webdeveloper, Cheyyar

June 2025 — July 2025

Worked as a Web Development Intern at CodSoft, where I enhanced my front-end and back-end development skills through real-world project experience.

I built responsive and interactive web pages using **HTML, CSS, JavaScript**, and explored **modern frameworks** like **React.js**. During the internship, I completed tasks involving website design, form validation, layout building, and dynamic UI creation.

The internship helped strengthen my problem-solving abilities, sharpen my code quality, and understand client-side to server-side development flow. I also practiced **project deployment** and collaborated with mentors via GitHub.

⌖ Extra-curricular activities

Mini Project at College, Melvisharam

June 2025 — November 2025

Developed a **Local Service Finder web application** aimed at helping users quickly locate and contact nearby professionals like **plumbers, electricians, carpenters,** and other **home service providers.**

The platform allows customers to **browse service categories**, view contact details, and reach out directly. Designed with a simple and user-friendly interface for easy access.

The project was built using **HTML, CSS, JavaScript**, and optionally can be extended using backend tools like **Node.js or Firebase** to store service provider info.
